INDEX OF SUBJECTS

Volume 29

July 1962 • December 1962

Journal of the National Cancer Institute and NCI Monograph

Adenocarcinomas, RC and 755, effects of a combination of therapeutic measures on, 817
Adenosinetriphosphatase, activity in avian myeloblastosis virus, assayed by automatic instrumentation, 455
Adrenal glands, changes in ultrastructure of, in dogs after treatment with DDD [2,2-bis(parachlorophenyl)-1,1-dichloroethane], 127
Age, influence of, on incidence of kidney tumors in frogs, 253
Alkaline phosphatase:
  activity of, and chromosome complement in clonal strains in tissue culture, 699
  in mouse thymus, effect of irradiation on, determined histochemically, 375
Announcements:
  A Cautionary Note to Those Concerned With Circulating Cancer Cells in the Blood, 1023
  Manuscripts Approved for JNCI, 225, 395, 633, 815, 1024, 1199
  Measurement and Evaluation of Radioactivity in Man, 1198
  National Cancer Institute Monograph No. 9, 226
  National Cancer Institute Monographs Available From Government Printing Office, 1197
Announcements—Continued
  Registry of Radiation Pathology, 1198
  Symposium on Fundamental Cancer Research, 1199
  Thirteenth Annual Meeting of Animal Care Panel, 225
Antibody, antiviral, action of, in tissue cultures infected with Rous sarcoma virus, 723, 739
Antigen *see also* Antibody; Immunity studies
  Rous sarcoma virus, location of, on cell, 723
Antimetabolites *see* 8-Azaguanine
Automobile, contribution of, to benzene-soluble organic matter in air, NCI Monogr. No. 9, 17
8-Azaguanine, P388 leukemias, sensitive and resistant to, purine nucleotide pyrophosphorylases in, 789

Benzo[*a*]pyrene, quantitative analysis of, in vapors from melted tar, NCI Monogr. No. 9, 221
Betel-quid ingredients, failure to produce tumors in hamster cheek pouch, 1047
Blood:
  cautionary note to those concerned with circulating cancer cells in, 1023
  flow of, into transplanted tumors, 389
Books Received, 227

658802—62——18

Brain, papillary ependymomas of, in *Rattus* (*Mastomys*) *natalensis* inoculated with simian vacuolating virus (SV40), 765
Breast, human, epithelial mucins in lesions of, 963

Carcinogenesis *see also* Names and types of tumors
bioassay of air pollutants, NCI Monogr. No. 9, 75
effect of,
air pollutants in, NCI Monogr. No. 9, 91
hormonal status on hepatic, in rats by *N,N*-dimethyl-*p*-(*m*-tolylazo)-aniline, 567
hormones and *N*-2-fluorenyldiacetamide in hepatic, 933
pituitary homograft on mammary-gland growth and tumorigenesis in rats by 3-methylcholanthrene, 107
various concentrations of croton oil on epidermal, 687
hydrocarbons, histopathologic changes in hamster cheek pouch and other organs, 1047
induced,
breast tumors in rats by chemical and X ray, 1069
tests on the newt for, NCI Monogr. No. 9, 71
various tumors in infant mice, by urethan, 1035
strain factors in hydrocarbon-induced mammary cancer in rats, 805
vaccinia dermal infection and 3-methylcholanthrene in cortisone-treated mice, 635, 653
Carcinogens *see* Benzo[*a*]pyrene; Croton oil; 7,12-Dimethylbenz[*a*]anthracene; *N,N*-Dimethyl-*p*-(*m*-tolylazo)aniline; *N*-2-Fluorenyldiacetamide; *N,N'*-2,-7-Fluorenylenebisacetamide; Hydrocarbons; Mammary-tumor agent; 3-Methylcholanthrene; Polycyclic compounds; Urethan
Carcinoma, suppression of, Vx7, by Shope papilloma vaccine, 287
Cervix, cancer of, detection of, clinical trial of Cytoanalyzer (automatic scanner), 267
Chemotherapy, effects of, on tumor growth in combination with surgery and host defenses, 817
Chromotography:
gas-liquid, determination of paraffin waxes of tobacco and tobacco smoke by, NCI Monogr. No. 9, 171
high-temperature gas, analysis of coal tar products by, NCI Monogr. No. 9, 183
Chromosomes *see also* Genetics
in acute granulocytic leukemia in human adults, 545
in atypical myeloid disorders in humans, 911
in Rous sarcoma induced by transfer of homologous cells, 1147
of Syrian golden hamster, karyotypic analysis of normal animals and two tumors, 161
in tissue-culture strains differing in alkaline phosphatase activity, 699
Croton oil, epidermal carcinogenesis by carcinogen and various concentrations of, 687
Cytoanalyzer (automatic scanner), summary of clinical trials of, with cervical smears, 267

DDD [2,2-bis(parachlorophenyl)-1,1-dichloroethane], effect of, on ultrastructure of the canine adrenal cortex, 127
Diethylstilbestrol *see* Hormones
7,12-Dimethylbenz[*a*]anthracene, strain factors in mammary-cancer induction in rats by, 805
N,N-Dimethyl-*p*-(*m*-tolylazo)aniline, effect of hormonal status on rat liver carcinogenesis by, 567

Electron microscopy:
of murine leukemia, 1177
of murine tumors associated with electron-dense particles, 491
of Rous sarcoma virus, 211
Embryo, mouse, effect of polyoma virus on kidney rudiment of, 597
Environment:
carcinogens in human, NCI Monogr. No. 9, 1
effect of temperature on incidence of frog kidney tumors, 253
separation and identification of aliphatic and aromatic carcinogens from, NCI Monogr. No. 9, 135

Enzymes *see also* Names of
enzymatic assay of adenosinetriphosphatase activity by automatic instrumentation, 455
Epidemiology, cancer of nasopharynx, incidence of, in Chinese and Caucasians, 483
Erythroblastosis (avian) *see* Virus
Erythrocytopoiesis, relation to virus-induced lymphatic leukemia, 515
Etiology of cancer, hereditary and environmental factors in cancer of the nasopharynx, 483

N-2-Fluorenyldiacetamide, effect of hormones in hepatic carcinogenesis by, 933
N,N'-2,7-Fluorenylenebisacetamide, carcinogenic effect of, by intraperitoneal route, 977
Fowl tumors:
distribution of Rous sarcoma virus and tumor foci in chicks and turkeys, 397, 421
transplantation of chicken lymphoid tumor in homologous hosts, 1013

Gastric cancer, in rats, with *N,N'*-2,7-fluorenylenebisacetamide, 977
Genetics *see also* Chromosomes
genotype, obese, relation to liver, lung, and mammary tumors of mice, 197
heredity and environment in cancer of the nasopharnyx, 483
strain factors in hydrocarbon-induced mammary tumors in rats, 805
γ-Globulin, turnover of, in chronic lymphocytic leukemia, 443
Glucose, effect of insulin on, uptake by normal and neoplastic mammary tissue, 321
Glycerol, concentration of, effecting recovery of cultured cells after freezing, 749
Growth, of urethan-induced neoplasms of lung at high altitude, 945

Hamster, cheek pouch, failure to produce tumors in, with betel-quid ingredients, 1047
Histochemistry, mucins containing sialic acid in human breast lesions, 963
Hormones:
effect of pituitary homografts in rats on mammary carcinogenesis by 3-methylcholanthrene, 107
Hormones—Continued
progesterone and diethylstilbestrol in hepatic carcinogenesis by *N*-2-fluorenyldiacetamide, 933
in rat liver, carcinogenesis by *N,N*-dimethyl-*p*-(*m*-tolylazo)aniline, 567
Host defenses, effects of, on tumor growth in combination with surgery and cancer chemotherapy, 817
Hydrocarbons (carcinogenic):
airborne particulate, as affected by different types of pollution, NCI Monogr. No. 9, 201
analytical and biological studies for, in gasoline engine exhaust, NCI Monogr. No. 9, 91
from gasoline engine and diesel engine exhausts, NCI Monogr. No. 9, 193
problems in analysis of polycyclic, in particulate pollution samples, NCI Monogr. No. 9, 153
pyrolysis of, and analysis of resulting tars, NCI Monogr. No. 9, 1
separation of, from environmental sources, NCI Monogr. No. 9, 135
techniques for determination of polycyclic aromatic, in air, NCI Monogr. No. 9, 225

Immunity studies:
antigenic composition of hamster tumors induced by polyoma virus, compared with normal hamster tissues *in vivo* and *in vitro*, 239
of Shope papilloma regression vaccine, 277
of suppression of carcinoma Vx7 by Shope papilloma vaccine, 287
Inclusions, intranuclear, in kidneys of wild rats with elevated tissue concentration of lead and renal neoplasms, 863
Infectivity, titration of, in avian sarcoma and erythroblastosis, 675
Insulin, effect of, on glucose uptake by normal and neoplastic mammary tissue, 321
Irradiation *see also* X ray
effect of, on alkaline phosphatase activity in mouse thymus, 375
lymphoid-stimulating factor in serum of irradiated rats, 229

Kidney tumors:
in chickens with virus, 1, 41

Kidney tumors—Continued
in frogs, of various sizes, kept at different temperatures, 253
in wild rats, associated with nuclear inclusions, with characteristics of inclusions produced by lead, 863

Leukemia *see also* Lymphoid tumors; Reticulum-cell sarcoma
chromosome studies of,
acute granulocytic, in human adults, 545
chronic granulocytic, monocytoid variety, in human adults, 911
lymphocytic,
chronic, in humans, turnover of γ-globulin in, 443
in mouse, induced by a virus and associated with erythrocyopoiesis, 515
murine, morphology of particles found in, 1177
P388, 8-azaguanine-sensitive and -resistant, purine nucleotide pyrophosphorylases in, 789
transplantability of, into mice previously inoculated with a virus of, 759
Leukocytes, aggregation of, as factor influencing Cytoanalyzer (automatic scanner) performance, 267
Liver:
hormones and *N*-2-fluorenyldiacetamide in carcinogenesis of, 933
metabolism of polycyclic aromatic hydrocarbons in, NCI Monogr. No. 9, 81
Liver tumor(s):
effect of hormonal status of rats in induction of, by *N,N*-dimethyl-*p*-(*m*-tolylazo)aniline, 67
induced by urethan,
in HR mice, 1107
in infant mice, 1035
Lung tumor(s):
induced by urethan,
at high altitude, 945
in infant mice, 1035
Lymphoid tissue, stimulating factor on, in serum of irradiated rats, 229
Lymphoid tumor(s) *see also* Leukemia
in chickens, transplantability of, 1013
induced by,
concerted action of 3-methylcholanthrene and vaccinia virus in mice, 635
urethan in infant mice, 1035
Lymphoid tumor(s) etc.—Continued
in rats after heterotransplantation and inoculation with cell-free extracts of leukemic AKR mice, 293

Mammary gland(s) *see also* Mammary tumors
morphogenesis and transplantability of, 835
Mammary tumor(s):
effect of,
insulin on glucose uptake by, compared with normal tissue, 321
pituitary homograft on mammary-gland growth and tumorigenesis in rats, 107
in rats, induced by 3-methylcholanthrene and X irradiation, 1069
strain factors in induction of, by hydrocarbons in rats, 805
Mammary-tumor agent, agent-free mice, mammary-tumor development in, effect of "mammotropins" on, 886
Metals, lead, renal tumors in wild rats with intranuclear inclusions, 863
Methodology, relative proportions of airborne hydrocarbons, as affected by pollution, NCI Monogr. No. 9, 201
3-Methylcholanthrene:
effect of pituitary homografts in rats on mammary carcinogenesis by, 107
strain factors in mammary-cancer induction in rats by, 805
vaccinia dermal infection and carcinogenesis by, in cortisone-treated mice, 635, 653
and X ray, breast-tumor induction in rats by, 1069
Mitosis:
of lymphoid tissue in irradiated rats, 229
study of, in cells from patients with acute granulocytic leukemia, 545
Mucin, sialic acid in, in human breast, 963
Myeloblastosis (avian) *see* Virus

Nasopharynx, hereditary and environmental influences in cancer of, 483

Obesity, role of *ob* gene in relation to liver, lung, and mammary tumors of mice, 197
Obituary, Kahler, Herbert, August, V

Papilloma *see also* Virus
skin,
effect of West Nile virus and chemical carcinogens on, 711
mechanism of formation of, 653
Pituitary gland, effect of, on mammary-gland growth and carcinogenesis by 3-methylcholanthrene in rats, 107
Pituitary-gland tumor(s), transplantable, effect of induction of mammary tumors in mice by virus, 886
Pollutants (air):
analysis of, by high-temperature gas chromatography, NCI Monogr. No. 9, 183
assessment of factors concerned with carcinogenic properties of, NCI Monogr. No. 9, 81
bioassay technique for, NCI Monogr. No. 9, 59
contribution of automobile to, NCI Monogr. No. 9, 17
quantities of, in various locations, NCI Monogr. No. 9, 235
requirements for sampling, separation, and analysis of, NCI Monogr. No. 9, 75
samples of, problems in analysis of, NCI Monogr. No. 9, 153
Polycyclic compounds *see also* Hydrocarbons (carcinogenic)
analysis of, NCI Monogr. No. 9, 1
decomposition of aromatic hydrocarbons under laboratory illuminations, NCI Monogr. No. 9, 117
from gasoline engine and diesel engine exhausts, NCI Monogr. No. 9, 193
Polysaccharides (bacterial):
Serratia marcescens,
effect of dosage of, on Sarcoma 37 growth, induced refractoriness of Sarcoma 37 in mice by, 1161
tumor-necrotizing activity in serum of mice treated with, 1169
Progesterone *see* Hormones
Purine nucleotide pyrophosphorylases, in 8-azaguanine-sensitive and -resistant P388 leukemias, 789

Reticulum-cell sarcoma(s), isolation of cell-free agent associated with, in BALB/c mice, 1083
Review, search for causative viruses in human cancer, 1027
Ribonucleic acid, of avian myeloblastosis, mechanism of synthesis of, 355
Rous sarcoma *see* Virus

Sarcoma(s) *see also* Lymphoid tumors; Reticulum-cell; Walker carcinosarcoma 256
———37,
damage of, by serum of mice treated with *Serratia marcescens* polysaccharide, 1169
growth of, action of bacterial polysaccharide of *Serratia marcescens* on, 1161
———180, effects of a combination of therapeutic measures on, 817
avian, titration of infectivity of, 675
Serum:
human, toxicity of, in tissue culture, 331
mouse, tumor-necrotizing action of, from mice treated with *Serratia marcescens* polysaccharide, 1169
Skin tumor(s):
carcinogenesis, in mice, with urethan, 1107
induced by,
carcinogen and various concentrations of croton oil, 687
concerted action of 3-methylcholanthrene and vaccinia virus infection in cortisone-treated mice, 635, 653
Spectroscopy, fluorescent, geometrical aspect of, NCI Monogr. No. 9, 127

Technique(s):
in analysis of coal tar products, NCI Monogr. No. 9, 183
apparatus for collection of particulate matter from atmosphere, NCI Monogr. No. 9, 17
bioassay,
for atmospheric pollutants, NCI Monogr. No. 9, 59
of avian sarcoma and erythroblastosis, with the use of wing-web inoculation, 675
biophysical,
freezing of cultured cells in chemically defined medium, recovery of viable cells thereafter, 749
rate of blood flow into transplanted tumors, with rubidium-86 (Rb^{86}), 389
of collecting vapors for analysis of benzo[*a*]pyrene, NCI Monogr. No. 9, 221

Technique(s)—Continued
collection, separation, and analytical, for airborne hydrocarbons, NCI Monogr. No. 9, 201
for determination of polycyclic aromatic hydrocarbons in air, NCI Monogr. No. 9, 225
for isolation of polynuclear aromatic hydrocarbons, NCI Monogr. No. 9, 91
Thymus, of C57BL mouse, histochemistry of, after irradiation, 375
Thyroid gland, human, effect of simian vacuolating virus (SV40) on cell cultures derived from tissue of, 1123
Tissue culture:
of chicken myeloblasts, cellular and viral ribonucleic acid synthesis in, 355
of clonal strains of Chang liver, karyotypic analysis and alkaline phosphatase activity of, 699
cytotoxic system in human serum in, 331
effect of polyoma virus on kidney rudiment of mouse embryo *in vitro*, 597
of human thyroid tissue, effects of simian vacuolating virus (SV40) on, 1123
recovery of cells frozen in chemically defined medium, 749
of Syrian golden hamster tumors, karyotypic analysis in, 161
Tobacco:
determination of paraffin waxes of, and of smoke from, NCI Monogr. No. 9, 171
smoke condensate,
carcinogens of, NCI Monogr. No. 9, 71
compared with aromatic polycyclic hydrocarbons from gasoline engine and diesel engine exhausts and atmospheric dust, NCI Monogr. No. 9, 193
Tracer studies, radioiodine-labeled (I^{131}) γ-globulin, metabolism of, in chronic lymphocytic leukemia, 443
Transplantation:
apparent heterotransplantability of murine leukemia to rats, 293
size and perfusion rate of transplanted tumors, 389
Transplantation—Continued
transplantability of,
homotransplantation of chicken lymphoid tumor, 1013
mammary glands, 835
mouse leukemias, influenced by prior inoculation with a leukemia virus, 759

Urethan:
lymphocytic neoplasms, hepatomas, and other tumors induced by oral administration of, to infant mice, 1035
pulmonary tumors in mice at high altitude given, 945
tumors induced in mice by painting of skin with, 1107

Virus *see also* Leukemia; Lymphoid tumors; Mammary-tumor agent; Papilloma
of avian erythroblastosis,
renal tumors, 1, 41
titration of infectivity of, 675
of avian myeloblastosis,
adenosinetriphosphatase activity of, determined by automatic instrumentation, 455
ribonucleic acid metabolism of, 355
isolation of agent associated with reticulum-cell sarcoma from Ehrlich ascites cells in BALB/c mice, 1083
leukemia, in rats, with murine cell-free extract, 293
of mouse leukemia (Moloney), effect of inoculation of, on subsequent transplantability of leukemic cells, 759
murine leukemia,
induction of erythrocytopoiesis and lymphoid leukemia, 515
morphology of particles, 1177
papova, quantitation of, in human warts, 583
polyoma,
antigenic composition of hamster tumors induced by, compared with normal hamster tissue *in vivo* and *in vitro*, 239
effect of, on kidney rudiment of mouse embryos *in vitro*, 597
rabbit papilloma (Shope), regression of, by homologous and autologous tissue vaccines, 277

Virus—Continued
Rous sarcoma,
action of antiviral antibody in tissue culture on, 723
distribution of, in chicks and turkeys, 397, 421
induction of, by transfer of homologous cells, role of virus in, 1147
morphology of elaboration, 211
role of humoral antibody and dose in recovery of, from tissue culture, 739
search for, in human cancer, 1027
simian vacuolating (SV40),
papillary ependymomas produced in *Rattus* (*Mastomys*) *natalensis* by, 765
in tissue cultures of human thyroid gland, 1123
Virus—Continued
vaccinia dermal infection and carcinogenesis by 3-methylcholanthrene in cortisone-treated mice, 635, 653
virus-like particles, in murine tumors, revealed by electron microscopy, 491
West Nile, in carcinogenesis, 711

Walker carcinosarcoma 256, effects of a combination of therapeutic measures on, 817
Warts, human, quantitation of virus particles in, 583

X-ray (roentgen) irradiation:
induced aging by, influence of dose of, and estradiol on, 853
and 3-methylcholanthrene in breast-tumor induction in rats, 1069
